

Count on Eastern

... for new products, better profits, and faster installations:

Dual Angle

NEW

- Perfect for many close-coupled applications
- 60° dual angled design solves tight fit installations
- Rated for engines up to 4.0L/4,250 lbs.
- 2" inlet and outlet

QuietCat™

- Baffled tube design reduces noise by 35%
- Designed specifically for full size luxury cars and SUVs, including Cadillac, Lexus, Mercedes Benz, as well as pick-up trucks
- Rated for engines up to 5.9L/6,300 lbs.
- Available w/wo single air tubes and O2 sensor port
- Inlet and outlet sizes: 2", 2.5", and 3"

NEW

8" Universal

- Compact size for easy fit in tight applications
- Applicable for almost 90% of all cars, light trucks, and SUVs
- Rated for engines up to 4.0L/4,250 lbs.
- Inlet and outlet sizes: 1.75", 2", and 2.25"

All Eastern Converters are OBD II compatible*

*49 states. California excluded.

Eastern Manufacturing: A World Leader In Catalytic Converters.

Quality

World class quality has helped earn Eastern Catalytic converters certification in over 58 countries around the globe. Continual improvements in our design, production, and product delivery systems have made Eastern the smart choice in converters.

Coverage

We give you excellent coverage for cars, light trucks, SUVs, and vans. In addition to Eastern Catalytic's line of universal converters, we offer Diesel, High Performance, Direct-Fit, and Heavy-Duty catalytic converters covering over 750 applications. Our expanded range includes more configuration choices for inlet and outlet, air tubes, and O² sensors.

Value

Compare Eastern's value to the competition. Our flexible and efficient manufacturing facilities in the US, Mexico, and the UK make our converter lines highly competitive. And with Eastern, you're assured of quality that meets or exceeds OEM specs.

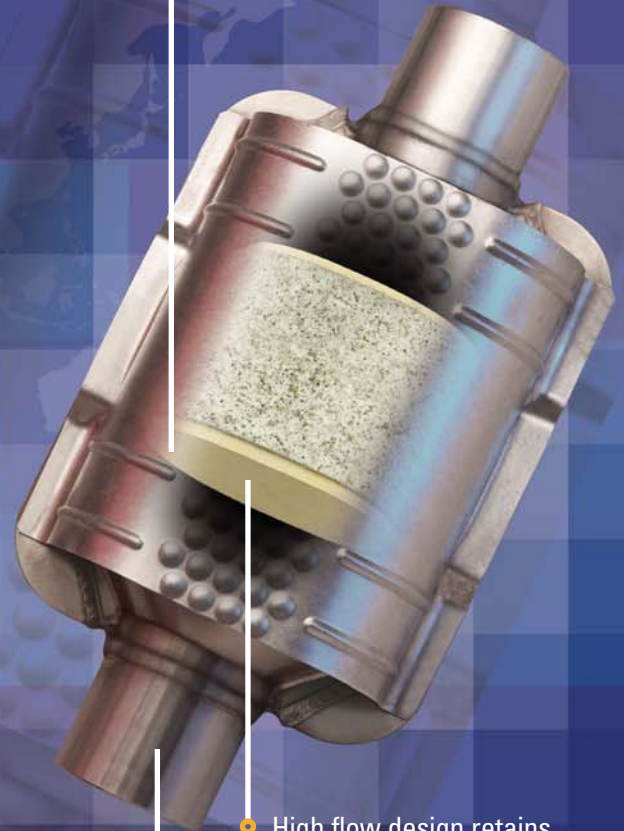

Certified Worldwide

Eastern Catalytic has earned over 72 certifications including certifications from the Environmental Protection Agency (EPA) and the California Air Resource Board (CARB). We are approved for OBD II vehicles in 49 states. In California, we're certified by CARB for pre-OBD II vehicles and are awaiting OBD II certification. We have also been approved for Euro II and Euro III certifications and have certifications in Mexico as well as the AOI in the Middle East.

OBD II Compliant

Every Eastern Catalytic Universal and Direct-Fit Converter is OBD II compliant in 49 states. Our converters meet all Federal EPA requirements for 49 states and perform as required with all OBD II systems currently in use. Our converters come with all required O² sensor ports.

Our proprietary chemistry yields highly efficient loadings for lower cost and better converter efficiency.

High flow design retains maximum engine output and maximizes catalytic efficiency.

Complete range of inlet and outlet diameters. In addition to a complete Universal line, Eastern offers a wide range of Diesel, High Performance, Heavy-Duty, and Direct-Fit converters.
